Good work Zach, keep trying hard and you will keep improving. Just think things through and keep your files organized, forget all about those "comfort zones" and "Boxes" you hear so much about, do things to the best of your ability and make them your own. <p>Good work Zack, keep trying and you will continue to improve.</p> <p>When working in animation it's very important to have the all the characters, background and other assets all look like they exist in the same design universe. Character design should be driven by the personality and physicality set out by the authors of the scene. Your colour choices are very important as characters and other elements move and so interact directly with other colours in the scene, thus making it difficult to maintain an even flow of contrast. Luckily in the animation industry all those colour choices are set by the Art Director. However as a student you still need to come to terms with these tough choices in an attempt to make your work look impressive. Remember that it's all about the total package when it comes to animation so try not to neglect any of the design choices that need to go into making a successful product. All of your best drawing can be defeated by a bad colour or design decision.</p> <p>Review Date: 2021-08-04</p>	<table> <tr> <td>Attendance</td> <td>12/12</td> </tr> <tr> <td>Participation</td> <td>35/40</td> </tr> <tr> <td>Character design</td> <td></td> </tr> <tr> <td>Character 1</td> <td>10/15</td> </tr> <tr> <td>Character 2</td> <td>10/15</td> </tr> <tr> <td>Interactive Sequence</td> <td>18/30</td> </tr> <tr> <td>Total</td> <td>73/100</td> </tr> </table>		Attendance	12/12	Participation	35/40	Character design		Character 1	10/15	Character 2	10/15	Interactive Sequence	18/30	Total	73/100

Mid-Term Review	Assignments	
<p>Zachary had a slow and measured response to the subject of creative stylisation along the digital media. However, some early examples of drills and sketches looked promising.</p> <p>Review Date: 2021-06-01</p>	<ol style="list-style-type: none"> <li>1. The art of sketching and image capture.</li> <li>2. Mid-Term Review	Assignments	
<p>Doing well so far, just remember to make each assignment fun for you to do while still fulfilling the assignment's requirements. Digital Painting isn't always about using brushes so make sure you explore your digital painting program to look for processes that will help you create your artistic vision.</p> <p>Review Date: 2021-07-21</p>	Attendance 6/6

<p>Good work Zack, you've come a long way so keep working hard and you will keep getting better.</p> <p>Here are some things to remember when creating digital art. Set yourself some good design and colour restrictions as this will help to unify your creation. Don't do things just because you know how to do them, do the things that are best for your artistic creation. This is digital art, so don't try to do everything with the brushes. Use your programs and push them to their limits. Do the best you can with the time you have. Have fun and play with the programs in your spare time, this will boost your understanding of the program and improve your creativity when using it. Cut yourself some slack, you're going to make some mistakes and that's OK. Just try not to make the same mistakes over and over. Consider every thing you've learned in all of your classes in all of your projects. The more you use your learned knowledge the quicker you will improve.</p> <p>Review Date: 2021-08-03</p>	<p>Attendance 12/12</p> <p>Participation 36/40</p> <p>Exercises 5/10</p> <p>Environment 1 7/10</p> <p>Environment 2 7/10</p> <p>Environment 3 7/10</p> <p>Creature creation 6/10</p> <p>Free choice 8/10</p> <p>Total 76/100</p>
