<p>Good work Darlene, you showed steady improvement throughout the term. You have a natural flare for drawing, the ability to find the visual interest in your subject matter and the drawing ability to do it justice. Here are some reminders and rules to help keep you on the right path.</p> <p>Remember there are different reasons for drawing, so don't lose sight of your intent. A sketch is a quick basic representation of the subject matter not unlike a gesture drawing of a human. A study is a more involved and detailed exploration of one or more of the elements. A drawing is a completely finished piece that makes a considered artistic statement. Remember what it is you're trying to achieve and spend the appropriate amount of time to accomplish it.</p> <p>Start working from light to dark, large to small, background to foreground. This will help produce a better drawing in a shorter time.</p> <p>Never start off drawing with dark tones. The dark tones are the last tones you apply.</p> <p>Never outline the objects in your drawing, as those objects will look rather flat.</p>		<p>Attendance 11/12</p> <p>Participation                    34/34</p> <p>Ross Bay                            5/6</p> <p>Inner Harbour #1                5/6</p> <p>Beacon Hill Park                6/6</p> <p>Oak Bay Marina                  5/6</p> <p>The Atrium                        6/6</p> <p>Craigdarroch Castle            5/6</p> <p>Government House              5/6</p> <p>Gates of Chinatown             5/6</p> <p>Inner Harbour #2                -/6</p> <p>St. Ann's Academy 5/6</p>

Try and find the fastest way to create the texture you are trying to represent, a little experimenting and practice on another sheet of paper will save you time in the long run.

Cut yourself a little slack, you're going to make mistakes and that's OK.

Have fun when you draw and your drawings will be fun to look at. Keep trying and you will get better.

I look forward to teaching you again.
