DRAWING 101 Drawing Fundamentals	Grade: C-	Attendance: 45.25 / 60 hours (75%)
Mid-Term Review		Assignments
<p>As you relax into class I think you'll find it increasingly easy to stay focused, Zack. (Getting over that cough will help, too!) When you're at home keep writing about the process of drawing and then letting me know what you discover so I can help in the best way possible. Of course, in class the most important thing is to just draw whether it feels comfy or not! You're doing a great job so keep up the good work.</p> <p>Review Date: 2019-10-20</p>		<p>Studio (working primarily from model): composition, gesture, relative tonal value, aerial and linear perspective, light and shadow.</p>
End Of Term Review		Assignments
<p>I had to mark you down, Zack, because, as the course outline noted, participation and willingness to try new approaches are a huge part of this foundation course. This includes developing patience and a committment to yourself, the drawing in front of you, and your process. Sticking with what you're doing when you can't yet see the end result is how you find the answers-- maybe not in that drawing, but down the road. This adds to an artist's confidence that they can find the solution. If you back away from every challenge you cheat yourself of that victory.</p> <p>Hope there were aspects of the course that will be useful to you as you progress with your drawing. All the best!</p> <p>Review Date: 2019-11-07</p>		<p>Further studio work from model and still life in volume, line, texture, portraiture.</p>

Good work Zachary, you have demonstrated a working knowledge of the basics of Photoshop. Remember to be extra carefull when working in photoshop,the great thing about this program is that it allows you to be exact, so take the time you need to get it right. Don't be sloppy or lazy as it won't pay off in the long run. Name all your Layers and Groups, when you start working on documents with 40 or 50 layers you'll be glad you've taken the time to name them. Review Date: 2019-12-16	Attendance	9/12
