<p>Good work Blake, keep it up and you will continue to do well.</p> <p>Here are some things to remember when working in photoshop.</p> <p>Make sure that; each layer of your document is exactly the way you want it, all your layers are organized in the right order from top to bottom, all your layers and groups are labelled and coded (when your document gets upwards of 50 layers this will save you a lot of time and frustration), SAVE OFTEN!</p> <p>You are the artist and this is a form of digital art so do it with finesse. Photoshop doesn't make mistakes you do, so keep your mind on what you're doing and make as few mistakes as possible. Learn the keyboard shortcuts and use them to save time. There are at least 3 different ways of doing most things in Photoshop so use the one that's best for you. Learn what you can make the program do, not just what it is meant to do, make it one of your best tools</p> <p>You are an artist first and that is your major strength, so as with painting you need to plan your image in advance. No amount of Photoshop expertise will save a bad Idea. Make sure your concept is the best you can come up with then proceed to develop it to its' fullest. Ideas that prove insufficient for one project may be perfect for another so save your ideas and reuse them when appropriate. Make sure your work conforms to the specifications provided to you. Make sure you have the legal right to use the photos, you were either given the right to use them, you purchased the right to use them or you took the photos yourself. Use everything you've learned in all of your courses in all of your creations. Always do the best you can in the time you have. If all you have is 8 hours, don't try to do a 20 hour job. Know your limits. I look forward to teaching you again.</p> <p>Review Date: 2021-05-29</p>		<p>Attendance 10/12</p> <p>Participation 36/40</p> <p>Logo 13/20</p> <p>Business Card 13/20</p> <p>Poster 17/20</p> <p>Total 79/100</p>
