Good work so far Phoenix, you seem to be understanding the basics of this program and are ready to take it to the next level. Please go to the Toon Boom website and do the tutorials that are there for your benefit. Remember all the things that you have learned in your other classes (Drawing, Painting, Design, etc.) and put them into use in all of your animation projects. This will improve the look of your assignments and speed your improvements. Your absences have unfortunately affected your final grade. Good luck in the future. <p>Your final assignment was interesting and you used various elements like water, filters, mirroring effects.</p> <p>The frog jump using the same ball bounce principles was missing from the assignment. The assignment with the water, frog and fish animation was not submitted before deadline reflecting the grade in addition to the missed classes and being late.</p> <p>In the previous course (abstract animation), this assignment submitted would have been suitable.</p> <p>Progress work was not send in after class as requested.</p> <p>You have the creativity to create something different.</p> <p>Remember consistency is key.</p> <p>Review Date: 2021-03-05</p>	ASSIGNMENT 3:  Completed

I did hope in the two weeks it would have been a little longer. The possibilities to creating your own animation are endless and, after a slow start, along with your drawing skills, I am sure you will get the ball rolling and do well!</p> <p>All the Best.</p> <p>Review Date: 2021-02-01</p>	<p>Final Assignment:</p> <p>Finishing and Submitting the final abstract Assignment</p>

Excellent work Poenix, keep it up. Remember it takes less time to get to great results when you completely plan things out in advance and stick to that plan.  Just think things through and keep your files organized, forget all about those "comfort zones" and "Boxes" you hear so much about, do things to the best of your ability and make them your own.
